

# CSiBridge® Version 20.2.1 Release Notes

© Copyright Computers and Structures, Inc., 2019

**Notice Date: 2019-02-01**

This file lists all changes made to CSiBridge since the previous version. **Most changes do not affect most users.** Incidents marked with an asterisk (\*) in the first column of the tables below are more significant.

## **Changes from v20.2.0 (Released 2018-09-19)**

### **Installation and Licensing Enhancements Implemented**

<b>*</b>	<b>Incident</b>	<b>Description</b>
*	229144	CSiBridge v20.2.1 is identical to v20.2.0, except that v20.2.1 uses a CSiBridge v21 license, whereas v20.2.0 uses a CSiBridge v20 license. Model files (.BDB and text) are interchangeable between the two versions, and both versions produce identical results to within the numerical accuracy of the computer. CSiBridge v20.2.1 is released as a 64-bit version only, consistent with CSiBridge v21.
