Notice Date: 2018-07-24

This file lists all changes made to ETABS since the previous version. Incidents marked with an asterisk (*) in the first column of the tables below are more significant.

Changes from v16.2.1 (Released 2018-01-10)

License and Installation Enhancements Implemented

*	Incident	Description
*	217931	ETABS 2016 version v16.2.2 is identical to v16.2.1, except that v16.2.2 uses a ETABS v17 license, whereas v16.2.1 uses a ETABS 2016 license. Model files (.EDB and text) are interchangeable between the two versions, and both versions produce identical results to within the numerical accuracy of the computer. ETABS 2016 v16.2.2 is released as a 64-bit version only, consistent with ETABS v17.
